Claim Rejections - 35 USC § 103

21. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

22. Claim 19 is rejected under 35 U.S.C. 103(a) as being unpatentable over Win in view of Official Notice.

23. Win disclosed the use of images in column 11, lines 42-64, under the Personalized Menu Service. Win failed to explicitly state that the icons and graphic buttons used in lines 57-58 were checkmarks. However, Official Notice is taken that a checkmark is a well known graphic image. It would have been obvious to one of ordinary skill in the art to use any image with Win, including a checkmark.
